### **Product Description**

## **Honda 21" Hydrostatic Self Propel Push Mower - HRC216HXA**

- Self-propelled, hydrostatic, commercial-grade transmission
- Roto-Stop<sup>®</sup> blade stop system
- Rugged features for commercial use
- Easy starting commercial GXV160 Honda engine

### **Roto-Stop<sup>®</sup>: Stop the blades without stopping the engine**

Honda Roto-Stop<sup>®</sup> blade stop system allows you to step away from the mower, without having to start and restop the engine. Move items out of the way, empty the bag, or take a break, without having to restart your mower. It also allows the mower to be self-propelled without the blades turning, which provides a convenient method to transport the mower to and from the job site.

### **Honda commercial-grade GXV160 OHV 4-stroke engine**

The easy-starting, powerful, and quiet GXV160 commercial engine is designed for superior reliability. Features include a cast iron cylinder sleeve, two-stage air filter, ball bearing supported crankshaft, electronic ignition and mechanical governor

### **Honda MicroCut<sup>®</sup> Twin Blades: superior mulching and bagging**

Honda's exclusive MicroCut<sup>®</sup> twin blade system uses four cutting surfaces that result in ultra fine clippings for superior mulching and bagging. Tiny pieces mean up to 30% more clippings in a bag, plus better mulching – saving you time and money.
