Product Description

Hotsy 500 Series Pressure Washer - 555SS

Hotsy's 500 Series offers the best of both worlds – powerful cleaning in an affordable package that is both rugged and long lasting. The entire series has been updated to feature a bigger frame, large flat-free tires, and an ergonomic handle. We've upgraded the 555HE to Black Label status with loads of extra features to go along with its technologically advanced heat exchanger that takes water to higher temperatures faster. All models are ETL safety certified and feature the best warranties in the business. Each comes with a 50-ft high-pressure hose, lance, nozzles, and trigger gun.
