Product Description

Exmark Quest 42" Zero Turn Mower - QZE722GEE42200

Need to make quick work mowing your lawn? Quest E-Series zero-turn lawn mowers deliver professional performance and power at the tip of your fingers. The residential zero-turn mower allows homeowners to mow up to 2.8 acres per hour, moving up to 7 mph. Add Exmark's zero-turn maneuverability, and it adds up to a premium residential mower at an affordable price.

Ride in style and comfort on the E-Series mower's floating decks and ergonomically designed seat system. Every Quest comes with commercial-grade wheels to instill confidence in the riding mower's ability to deliver precise cutting and professional-grade traction for zero-turn riding. The E-Series residential mower is also available in a 42-inch or 50-inch welded steel mower deck and cutting width. A 22-horsepower Exmark engine powers the Quest E-Series for maximum efficiency.
